

White Paper: NexaCoin

Introduction

NexaCoin (NXC) is a revolutionary cryptocurrency designed to combat veteran and family homelessness by integrating charitable giving directly into blockchain transactions. Our mission is to leverage the power of decentralized finance (DeFi) to generate ongoing, transparent funding to organizations dedicated to ending homelessness.

Vision

We envision a world where blockchain technology actively contributes to social good, empowering communities to sustainably support veterans and families experiencing homelessness.

Objective

To establish a transparent, automated donation mechanism that redistributes a percentage of every cryptocurrency transaction directly into a designated charitable fund overseen by an advisory board. This fund will allocate resources to vetted and reputable organizations committed to addressing veteran and family homelessness.

Blockchain Technology

NexaCoin will initially launch as a BEP-20 token on the Binance Smart Chain (BSC), chosen for its efficiency, lower transaction fees, scalability, and accessibility for global users.

Tokenomics

Token Supply

Total Supply: 1,000,000,000 NXC

Transaction Fee Structure

Charity Contribution: 3% automatically redirected to a charity wallet

Liquidity Provision: 2% automatically added to liquidity pools for market stability

Holder Rewards: 1% redistributed as passive income incentives to token holders

Charity Wallet Transparency

The dedicated charity wallet address will be publicly accessible, ensuring transparency and accountability. All transactions from this wallet will be documented on the blockchain and regularly audited by the *NexaCoin* advisory board.

Governance

NexaCoin will be managed by an advisory board composed of:

Veterans' advocates

Homelessness and housing specialists

Financial and blockchain experts

Community leaders

The board will oversee charity wallet distributions, select qualified recipient organizations, and regularly publish detailed impact reports to the community.

Compliance and Legal Structure

NexaCoin operations will be fully compliant with applicable AML/KYC standards and charitable laws. An independent legal entity will be established to maintain accountability, transparency, and regulatory compliance.

Initial Liquidity and Exchange Strategy

NexaCoin will initially list on decentralized exchanges such as PancakeSwap. Initial liquidity will be locked to protect investor trust and ensure token market stability. Future listings on centralized exchanges will follow, enhancing accessibility and market presence.

Marketing and Partnerships

NexaCoin will leverage strategic partnerships with recognized nonprofits, social media outreach, and community-driven promotional activities. Regular reports highlighting the tangible impacts of donations will build trust and encourage sustained community involvement.

Transparency and Accountability

Blockchain transactions will provide a permanent, auditable ledger of all charitable activities. Regular transparency reports will detail the distribution of funds, recipient

organizations, and real-world impacts on veterans and families experiencing homelessness.

Roadmap

Q2 2025: Token creation, smart contract audit, initial liquidity provision

Q3 2025: Launch on decentralized exchanges, establishment of the advisory board

Q4 2025: First charitable donations made, transparent reporting initiated

Q1 2026: Expansion of exchange listings, community growth initiatives

Conclusion

NexaCoin bridges technology and philanthropy, providing a scalable, transparent, and sustainable model to support veterans and homeless families. By harnessing the power of decentralized finance, we can collectively make meaningful strides towards ending homelessness.
